

Tuition & Fees

Tuition for the 2012 Ski & Snowboard Camp includes lodging, meals, lessons and program. Transportation and rental fees are not included. Many campers will also bring some optional pocket money for snacks (at the ski lodge) and miscellaneous items.

Tuition...

| | |
|-------------------------------------|-------|
| Presidents' Day Vacation Week (#1): | \$799 |
| NH School Vacation Week (#2): | \$649 |

Rentals...

If your child does not have personal ski/snowboard equipment, King Pine is equipped with a full rental inventory. Quoted prices are for the duration of Ski & Snowboard Camp.

SKI PACKAGE:

| | |
|-----------------------------|-------|
| Child Package (12 & under): | \$88 |
| Adult Package: | \$116 |

SNOWBOARD PACKAGE:

| | |
|------------------------|-------|
| Child / Adult Package: | \$116 |
|------------------------|-------|

HELMET RENTAL:** \$40

- Helmets must be worn for participation at camp.
- Rental Liability Releases must be completed with a parental signature before rental equipment can be issued.

Transportation...

Chartering buses has become costly in recent years; however, charter bus service will be available to and from camp, providing enough people decide to use it. Prices listed here are round-trip estimates based upon the 2011 fee structure and are subject to change. One-way trips to select destinations will also be available.

| | |
|---|-------|
| Mountain Lakes, NJ (<i>Wildwood School</i>) | \$300 |
| Guilford, CT (<i>Exit 62 off Rte 95</i>) | \$250 |
| Providence, RI (<i>Moses Brown School</i>) | \$180 |
| Westwood, MA (<i>Rte 128 RR Station</i>) | \$165 |

Sunday – Friday
February 26 – March 2

74 years of carving tracks and making smiles!

74 Years of Carving Tracks & Making Smiles

The Program...

Since 1939, Ski Camp at Purity Spring Resort has welcomed boys and girls with fun & exciting possibilities for winter recreation. Wearing leather boots strapped to wooden skis, early skiers created many tracks... and many smiles... on these friendly slopes. When King Pine officially opened in 1962, countless individuals had already traveled to these hills to discover the thrill and camaraderie of skiing. Today, Ski Camp maintains its long-standing tradition of excellent instruction within the social setting.

Although we still tend to shorten the name to 'Ski Camp' when referring to our program, for many years now camper interest has split between both skiing and snowboarding. We welcome campers to focus on either of these disciplines. Boys and girls come to camp to ski, board, skate, swim, sled, dance, laugh, and learn together. An indoor pool, skating rink, tubing hill, and dance hall provide us with ample opportunities for fun when not on the slopes. For the most part, campers are in constant motion... enthusiasm prevails!

Our Staff...

Counselors at Ski & Snowboard Camp are caring and competent, ranging from high school students to parents of current campers. Many of our counselors have enjoyed their own camper days at camp... and some of us have been around for quite some time. Counselors act as instructors on the slopes, where campers are split into classes based on ability, ranging from beginner thru advanced. Off the slopes, counselors oversee nightly activities, socials, and dormitory life... support and supervision is readily available. Counselors look forward to camp as much as the campers do.

Camaraderie...

Whether kids come to camp alone, or with companions from home, they will soon discover that friendship and fun are integral parts of this experience. Our youngest campers are **age 8** (2nd grade), and range up to **age 17** (11th grade). Regardless of age, kids who come to camp will discover a unique experience with a very 'cool' group of people who inevitably become friends. While many kids return to camp from year-to-year, we are happy to welcome new kids of all ages to Ski & Snowboard Camp each winter.

Lodging...

Dormitory rooms are separated by gender, and are located in four buildings surrounding a central dining facility. Kids are placed in rooms based upon current grade and age, with most rooms housing about 6 campers plus staff. All rooms are heated and have private bathrooms with hot-water showers. Campers sleep in bunk style beds with basic bed linens provided by camp. Laundry service is not available, so packing for camp should be done with a week's period of preparation in mind.

3 Meals a Day...

Most of our cooks at camp are year-round employees of Purity Spring Resort. We are provided with three hearty meals a day, served as a buffet, with a variety of choices featuring several entrée items along with side dishes, salads, breads, and desserts. Campers sit at tables, 'family-style', in the company of fellow campers and staff. The menu is planned keeping both popular kid selections and healthy eating options in mind. It would be unlikely for a camper to leave camp claiming they did not have enough to eat.

Health...

Good health & hygiene will be encouraged at camp to the best of our ability. Dormitory rooms are equipped with private shower facilities, and all buildings provide opportunity to keep faces and hands clean, especially before meals. While camp runs at a fairly quick pace throughout each day, there are times built in for campers and staff to catch their breath and take a break. Bedtime at camp varies somewhat depending upon age and nightly program, but is generally geared towards being in the dormitories by 9:00 to 9:30pm.

Instruction...

Ski & Snowboard Camp was created following a traditional overnight summer camp template. It is a highly energetic social community wrapped around an instructional foundation. Kids come to camp with a desire to learn to ski and board better... and of course, to have fun! Structured lessons are held twice daily on most days, led by our own camp counselors. Although Ski & Snowboard Camp utilizes the facilities of King Pine, we are NOT connected to the ski school operated by the ski area itself. Lessons are followed by supervised 'free time' on the mountain, which allows kids to practice what they have learned... and to mix together with friends in other classes.

King Pine...

While smaller than many of its neighbors, King Pine Ski Area offers a variety of terrain, from wide, beginner-friendly slopes, to steep advanced pitches; 17 total slopes and trails. There is also a terrain park with an array of elements. Reliable snow and impeccable grooming will ensure perfect conditions during our week of camp.
